SKI CLUB PLANS NEW FEATURES AT CLUB HOUSE

Marysville Contingent Will Be on Hand Sunday for Winter Sports

A very enthusiastic meeting of members of the Nevada City-Grass Valley Ski Club took place Wednesday evening inthe local Chamber of Commerce rooms on the corner of Commercial and Pine streets.

Plans were discussed for the building of a dance floor to be located and partitioned off on one end of the big club room where the two warming stoves are now installed. It is said that the addition of the dance floor would add v ery materially to the attractions at the club house, as many members would take advantage of the dance floor upon coming in from the cold winter sports.

The plan for purchasing more skis was also discussed. At the present time the club has but eight pair of skis, which number is not enough to accomodate the hundreds that attend the course almost every Sunday during the winter season. The ten toboggans will not be added to as they seem to take care of the demand at this time.

Other plans that have been discussed in the past include the building of an ice rink for skating purposes. The Truckee Ski Club has one at their course which works in very nicely with the other winter sports at that club. President Geo. Carter of the local club attended, by special invitation, at the neighboring course last week end and reported a very enjoyable outing.

The California Fruit Growers Association from Marysville phoned early in the week for reservations to be held open for them this coming Sunday. They stated that thirty members would be on hand and requested the use of six toboggans and twelve pairs of skis. In addition to that many of the members are said to have their own winter sports paraphernalia. Unless the Ski Club can obtain the added number of skis, there is bound to be a shortage Sunday as a very large crowd is anticipated besides the extra Marysville group.

On the last week-end of this month the American Legion is planning a district meeting in Grass Valley. The twenty-ninth of this month, a Sunday has been set aside for devotion to winter sports at the Ski Club course. A big day is being planned for the Legion boys on that day.

FIRE BURNS ROOF OF NEVADA CITY HOUSE

Mrs. George Day heard what she though was a strong wind about three o'clock Wednesday afternoon. The Day family lives on the corner of Coyote street and Washington road opposite the Nevada City Sanitarium. Upon investigation, Mrs. Day discovered that the "wind" was in reality a fire that had caught on the roof from a defective flue.

After vainly trying to extinguish the flames, Mrs. Day carried her baby out of harm's way and turned i na fire alarm from box 35. The local fire department responded almost immediately and in a short time had the flames well under control.

Damage to the house was confined to the roof, damage on which has been estimated at between $150 and $250. It is understood that the house is insured against fire.

SPORTSMENS CLUB ENJOYS TURKEY DINNER

The Grass Valley Rifle, Rod and Gun Club, of which many Nevada City sportsmen are members, met last evening for a turkey dinner in the club headquarters in Grass Valley and elected officers. Moving pictures of wild game, hunting scenes, and of the State game farm and fish hatcheries, loaned by the State Fish and Game Commission. were exhibited.

Murray Pryor, of Walnut Grove, visited his sister, Mrs. Edna Martine, a few days ago.

SENATOR SEAWELL ON IMPORTANT COMMITTEES

Senator Jerrold L. Seawell has been appointed chairman of the important Insurance Committee for 1933 session of the California Legislature. Senator Seawell has also been appointed as a member of other important committees.

In a letter to the Nugget Mr. Seawell states that in 1933 Legislature is taking up the important problems that it is confronted with seriously and with a conscientious desire to bring about relief to the people of California and secure better efficiency in the operation of the state government.

Besides being chairman of the committee on Insurance, Mr. Seawell is a member of the following committees:

Education, Mines and Mining, Public Utilities, Oil Industries, Public Health and Quarantine, Revenue and Ttaxation, Roads and Highways.

OLD MINING PROPERTY IS BEING REOPENED

The Consolidated Bullion, Inc., is the name of a new company which is reopening the old Bullion shaft about a mile from Grass Valley. The project contemplates the development of a large group of mines and claims in the vicinity.

A small crew of men are engaged in clearing the ground and preliminary work. In addition to the Bullion claims several hundred acres of mineral land in the Osborne Hill Allison Ranch section has been secured.

The Bullion shaft is 1500 feet deep and there are extensive drifts. It is located about 100 feet from the Grass Valley Auburn highway.

TONOPAH DOCTOR IS VICTIM AUTO WRECK

Dr. P. D. McLeod, well known physician of Tonopah, Nevada, and who is known to many of the miners now working in the mines of Grass Valley and Nevada City, was killed in an antomobile accident which occurred Sunday morning.

Dr. McLeod was returning from a call and it is believed that he fell asleep while driving. The automobile turned over and caught on fire. When the body was discovered it was badly charred.

Dr. McLeod was one of the best known doctors in Nevada and was known as a man of high standing in his profession and also as one who always went when he was called, whether the patient was able to pay or not. The many people in Nevada county who knew Dr. McLeod will regret to learn of his untimely end.

NEW ELECTRIC LINE TO TOM COAN MINE

Work has been resumed at the Tom Coan mine in Willow Valley and an electric line has been completed to the property, according to Dan Stewart, P. G. & E. manager for this territory.

Coan has a big strong ledge on which he is working at the 200 level and the mine undoubtedly has a good future.

RETURNS TO SACRAMENTO

Miss Mabel Hale of Sacramento, left for her home last Tuesday morning after visiting in this city for a fortnight. Miss Hale was a guest of Mrs. Mary E. Langley and son John. The visitor was formerly a resident of Nevada City and was employed in the Nugget office up until early last year. Many pleasant acquaintances were renewed during Miss Hale's visit.

MINING SUPPLY MAN PREDICTS BETTER TIMES

N. E. Otterson, mining engineer and official of the Otterson Company which deals in mining machinery, was a visitor in the Nugget office this week, and predicted better times in 1933. He states that the many agencies which are working for improvement should begin to function in the near future, with a gradual betterment in business conditions.

Van Nuys—Electric Appliance Co. formally opened at 6324 Van Nuys Blvd.

COUNTY GRAND JURY IN SESSION

For the first time since its organization meeting the Nevada county Grand Jury was in session yesterday throughout the day. It will continue in session today. The Grand Jury is expected to bring in its annual report during the present session.

Judge Raglan Tuttle stated yesterday morning that he would not discharge the present Grand Jury for several months, as he did not believe the impaneiment of a new Grand Jury, entailing the expense of $400 or $500 to the county was warranted under present economic conditions.

Members of the present Grand Jury are R. J. Bennetts, foreman; Oscar Caflin, Harold Biggs, Mrs. O. Vincent, O. C. Shebley, Mrs. Mary Stewart, George D. Beyer, J. B. Stennett, Mrs. J. H. Hutinchinson, Mrs. E. C. Uren, Mrs. Lola M. Worth, Mrs. Edith Fay, Mrs. Charles White, E. A. Breckenridge, P. C. Peterson, James Penrose, Charles W. Leiter and Bernard Maguire. The two last named were unable to attend today's session.

MUST HAVE PLATES BY JANUARY 31ST

SACRAMENTO, Jan., 10.—It will be illegal to operate a motor vehicle in California after Sunday, January 15th, unless the owner has made application for 1933 license plates.

This was the ultimatum given all California motorists today by Russell Bevans, registrar of the Department of Motor Vehicles. Bevans said the department had no alternative but to enforce the law.

Bevans also called the attention of motorists to the fact that a double license fee is required by law from all who fail to secure new plates before January 31st.

For the motorist who would avoid a penalty equal to the amount of his fee, two ways are open. He may either go direct to any branch of the department or to any branch of the authorized motor clubs and secure his plates or he may forward his application by mail direct to the main office at Sacramento.

Of the two methods, Bevans said, the mail order plan is the easiest and simplest.

In either case the certificate of registration or "white slip" and the amount of the fee are required. Motorists remitting their fee by mail were advised to send certified checks postal money orders or bank drafts to avoid the use of currency.

The present address and county of residence should appear on the certificate of registration turned in for renewal.

"Do not delay if you would avoid payment of a penalty and possible arrest and inconvenience," Bevens urged.

LOS ANGELES PAPERS DO NOT STATE THE FACTS

Recent reports in Los Angeles mining papers stating that the Silver Pick Consolidated Mines Company, after two weeks preliminary work on their Nevada City holdings is getting down to actual mine operations, is entirely without foundation. In truth there are but a few men doing preparatory work around the mills and on top.

The Silver Pick people have acquirred the St. Louis, Le Compton, Federal Loan, Constitution and other adjoining mining claims about four miles east of this city. They have been there about two months and have done nothing underground as yet. Work was started on a pole line in order to bring electric power into the properties.

Lloyd Root, former California state mineralogist, is vice president and general manager of the Silver Pick Company, a Nevada concern. Root has offices in San Francisco.

POSSIBILITY THAT YUBA PASS BE OPEN SOON

Reports from the Yuba Pass county indicate that if the weather continues favorable the road will be open for automobile travel. Business men of Sierra county are interesting themselves in the matter and it is expected that a crew of men will start on the work this week.

WOMAN TRAVELS 1000 MILES TO CAST ROOSEVELT BALLOT

Mrs. Nella W. Hurd, only woman member of the Washington Democratic Electoral College, a sister of C. L. Wilson of Camptonville, traveled 1,000 miles to cast her ballot for Roosevelt and Garner.

Col. Hurd, her husband, now retired, was formerly a medical officer under the Czar in Russia. Following the revolution of the Bolshevists, he returned to America and enlisted in the U. S. Medical Corps and served until the end of the war. He was given the same rank as he held in the Russian army's medical staff.

TOM AND JERRY MINE TO START PIPING SOON

After being tied up for a considerable length of time, the Tom and Jerry hydraulic mine in the Quaker Hill mining district will probably be put on a production basis in the very near future if the present efforts of attorneys are at all fruitful.

Recent history of the mine discloses a nasty tangle of litigation which includes leases, water rights, trustee, bill and operating diputes. Mr. and Mrs. William Fenton, owners of the property, are at present in Nevada City and bending every effort in order that all parties concerned may come to an amicable understanding and so that operations at the mine may proceed in a miner like manner. Their attorney is now working on the case and reports to them that things are working out nicely and that in a short period of time in all probability the legal path will be cleared for the continued operation of the mine.

It is understood that the leasers, Edward Bickle and his father, are quite disposed at this time to bend their efforts toward a friendly settlement. The Bickles have been staying at the mine off and on.

Instrumental to the ironing out of present difficulties in all probability will be an influential mining man not unused to conditions in this district. This man has had his engineer inspect the Tom and Jerry property, the reports have been favorable and he is now offering any aid that may be necessary to start the mine operating under a new deal.

The Tom and Jerry hydraulic mine is one of the choicest gravel properties in all Nevada county. It is about nine miles due east of Nevada City on the road to the P. G. & E. power house. The gravel averages some 80 feet deep and pays right up to the grass roots. In width the channel in some places is nearly one half mile. The water situation is good and the fall for tailings is nothing less than perfect for hydraulicing purposes. There is a cost of two cents per yard for the storage of tailings in the Nevada Irrigation District dam.

The mine is thoroughly equipped for immediate work with ditches, pipe, monitors, boxes, tool house, cook house, bunk house and office. Quite a glory hole has already been piped off the property. Valuable nuggets have been taken out and the entire bank will go on the average of 35 cents per cubic yard. There are unlimited millions of yards, virgin in character, waiting to be worked.

Natural resources for mining purposes are of the best. There is plenty of timber available, lot of water for piping, domestic or power purpose sand a good road leads directly to the property.

It is hoped that present troubles will be ironed out in a short time and that operating will be commenced at an early date. With an operating mine that has the potential possibilities o fthe Tom and Jerry, Nevada City will again be the Mecca for not only quartz mines but gravel mines as well.

Mrs. Will Buffington made a trip to Sacramento yesterday and on her return was accompanied by Mr. and Mrs. Foster Buffington, newly-weds, who had just finished their honeymoon. The young couple were married last week.

Balboa Island—O. J. Holt Grocery Store on South Bay Front, purchased by F. S. Brown.

SANTA ANA MAN VISITS PROPERTY NEAR HERE

Recently coming up from his home in Santa Ana, I. J. Owens came through this city in order to visit his property in the Scottie Flat district, some four miles east of Nevada City. He experienced some difficulty in arriving at his place and was forced to use chains as there is still considerable snow and ice on the road from Red Hill up.

Owen's property consists of 80 acres of wooded land adjoining the Martin Delali Hydraulic Mine, option on which is at present held by R. A. Turman of this city. Turman is now in the bay district confering with interests that may take hold of his property and work it for its placer gold content.

Last summer Owens built a cabin on his acreage and it is understood that he plans to spend sometime up here each year.

TWO NEW BUILDINGS FOR LOCAL FOREST SERVICE

The Tahoe division of the United States Division of Forestry, with offices in this city, is now constructing two new corrugated iron buildings on their property on upper Commercial street. The buildings will look like one large structure as they are to be located next to each other.

Over all, the two buildings will be thirty feet wide and one hundred and ten feet long. The largest building, which will be used for the storage of service automobiles and trucks is to be seventy-five feet long. The remaining thirty-five feet of building will be partitioned off and used for the storage of tools and road building equipment.

Funds for the building of these structures have been obtained from the recently appropriated emergency unemployment fund. Therefore, contrary to previous reports, the construction work is not being undertaken by regular employes of the Forest Service, but by local men who would otherwise be out of employment at this time.

The men are working a six hour day five days a week in order to spread the work around as far as possible. There will be approximately two and one half weeks more work before the buildings are completed. Arrangement is made so that married men are given more hours of employment than single men. The local ofice of the forest service is working the plan out so that it will give as much help to the Benevolent Society as is possible.

Work was started a week ago last Tuesday, with John Richards, who is not a regular employe, in charge of the construction work. The walls and roof are to be of corrugated iron, and it is being built so that at a later date cement floors can be put in.

TO INVESTIGATE MINE IN FRENCH CORRAL DISTRICT

Commander J. E. Pond, naval officer of Burlingame, and Donald Woodrum, of San Francisco, arrived in Nevada City yesterday evening and will investigate a mining property at French Corral.

CASTRO FUNERAL TUESDAY

The funeral of the late Mrs. Estelle Myrtle Castro, was held Tuesday afternoon at the Holmes Funeral Home in Nevada City. Services were conducted by the Rev. Charles F. Washburn and interment was in the Pine Grove Cemetery.

Former Residents Find Foggy Weather Unpleasant

After living several years in Nevada City, Mr. and Mrs. F. E. Burkhart, find the foggy weather of the bay district very disagreeable. They returned to this city a few days ago with the idea of getting away from the fog but found their home on Broad street had been rented and they were forced to return again to the lower country. Yes, there is no doubt about it—Nevada City has a fine climate all year around.

Judge Oscar Winburn of Grass Valley was a business visitor in Nevada City early this week.

Stockton—New post office-Federal building to be ready for use about March 1.

NEVADA CITY PLAYS GRASS VALLEY TONITE

Rival Teams Clash in What Promises to Be Close Contest

At 7:30 tonight in the Redmen's Hall in this city the B class teams of Nevada City High school will entertain the same class team from the Grass Valley High School. Immediately following, about 8:30, the class A teams of the two rival schools will tangle in what is billed as the main event of the evening.

The local B team enters as the under dog as they have not won a league game to date. Last week at Lincoln they lost 17 to 24 and trailed 3 to 12 at the half, making no field goals in the first half. The Lincoln team won from Grass Valley 26 to 25 and is the only team to have taken the measure of the Valley team as yet.

Quite the opposite condition exists with the class A team, where the local team has been installed as the slight favorite solely upon the results of their last week's win over the strong Lincoln team at Lincoln by the score of 31 to 24. Grass Valley earlier in the season lost to Lincoln by the score of 17 to 33.

The loss of Oates and Schiffner to the local A team for tonight's game will greatly lessen the local squad's strength. Oates, regular forward, is out with a severe case of boils and Schiffner is laid up with the flu. Pierce is to be shifted to a forward from his regular center position and Casci will be moved into the center job from a guard, Tucker will take Casci's guard position.

Starting lineups as announced by Coach Bev Barron of the Nevada City squad:

A team—Pierce, forward; Chapman, forward; Casci, center; Tucker, and Wasley, guards.

B team—Toccalini and Sbaffi, forwards; Celio, center; Tamblyn and Hoffman, guards.

Because of his good work in the Lincoln game, Bill Sharp may start as forward, in the place of Sbaffi. At any rate he will get the first call.

Admission to the games tonight will be adults 50c and students 25c.

MINING MAN INTERESTED IN NEARBY GOLD CLAIMS

The six quartz mining claims owned by Thomas Bath in the Rough and Ready mining district about five miles west of this city are at present being investigated by E. Woods, mining man. Bath has interested Woods in his quartz prospect and hopes to make a sale of the property through the contract. Indications in that direction appear to be very good according to Bath.

It is said that Bath has a property that merits considerable investigation. It is located but a short distance from the Empress mine which is doing so well at this writing. The Golden Eagle lead on the Bath property averages five and one half feet in width with values of around nine dollars per ton.

A story connected with the property goes to the effect that at the bottom of a 76 foot deep shaft there is a four and one half foot lead that produces gold values of two hundred dollars per ton of ore. It is impossible to get at the bottom of this shaft now as it is all caved in.

FORMER RESIDENT OF NEVADA CITY PASSES

Mrs. Clementine Harris, a former resident of Nevada City, passed away at Los Angeles Monday, death being caused by paralysis. Mrs. Harris was 95 years of age at the time of death.

Mrs. Harris retained even to the last a remarkable memory and could recount interesting events of the Civil War. She was married to Charles N. Harris in San Francisco and later moved to Carson City, where her husband was editor of the Carson City Index.

During her residence in Nevada City, Mrs. Harris lived with her son, Charles L. Harris in the Garthe house on Main street.

PROBING ROLPH

To those "in the know," the revelations now being made before the State Senate investigating committee confirm much of the grapevine information that has been leaking out of Sacramento. Nobody, who knows Col. Garrison for instance, doubts that his stiff backed honesty, his devotion to duty, got him into a jam with the state administration. A more compliant head of the Department of Public Works would have granted Rolph his request to have a road adjacent to his country place down the peninsula, given a secondary state highway status, and would have proceeded to spend some thousands of dollars per mile.

But Col. Garrison rudely refused the request of the man who made him chief of the Public Works Department. And believe us when the Col. is aroused he can be extremely rude. His duty, just as it was over in the Argonne Woods, was to serve his country well. He did just that and the Rolph claque gave him the run.

State Controller Ray L. Riley, is another man that can not be made to wobble from the strict path of duty. Moreover he is a fearless critic of the "gay doings" of the Rolph crowd, especially the gayety that costs the state treasury a lot of money. The recent rental of a building in San Francisco to be used by various state officers, at a total rental of $1,500,000, drew fire from the State Controller. That and other sundry matters are now being reviewed intensively by the State Senate committee.

We suspect that a very large laundry from the Governor's office will be presently airing in the State press.

LEGION TAKES UP "BUY AMERICAN" FIGHT

The American Legion has added its powerful support to the "Buy American" campaign and the campaign is now gaining an impetus that will make itself felt in the near future.

Commander Warren H. Atherton of Stockton, in a message to the California Legislature, says:

"Each Christmas (and before and after Christmas) there appears in American shops, perfumes from France, brushes from England, china from Czecho Sloviakia, toys from Germany, glassware from Austria, prints and silks from Japan, and various goods from other nations.

"The very manufacturers, merchants and individuals who deplore lack of employment and hard times in America, joyfully spend their money on imported foreign goods.

"What America makes, makes America. American payrolls mean American prosperity. American prosperity means American buying power. Every penny that goes out of our nation to purchase goods contributes to unemployment, uncertainty and dissatisfaction in America.

"Legionnaires! Demand American made goods and American made goods only, and millions upon millions of American dollars will stay in America where they belong, and thousands upon thousands of men walking the streets looking for work will find, by reason of a stimulated market, employment which they need.

"For our 1933 slogan, let us practice and preach that What America Makes, Makes America!"

THE SHARE-THE-WORK MOVEMENT

One of the really sound plans set in motion to create employment is the share-the-work movement, which is gaining momentum in all sections of the country.

The movement has three distinct purposes: (1) To check the upward trend of unemployment, when work is reduced for seasonal or other reasons, by employing the greatest possible number of workers on a shortened working schedule. (2) To decrease unemployment by a wider spreading of work now available among a larger group of employes working shorter periods; (3) Whenever an increasing volume of business permits employing additional personnel, to do so by distributing the increased work to the greatest possible number, rather than by working longer schedules.

The result of such a movement, if adopted in all the branches of industry, would be an immediate and appreciable increase in the purchases of food, clothing, shelter, and other necessary commodities and services. Millions of persons would be saved from want and despair. And, in addition, that psyological assurance which comes with a feeling of job security, would do much to stimulate the public moral and cause increased spending by those who now have jobs, but have been hoarding against the chance of unemployment.

In some industries sharing-the-work will doubtless cause a certain amount of trouble, expense and dislocation. But it is worth it. It is an important phase of a solution of our most pressing problems—extreme and increasing unemployment.

A LONG WAIT

My grandpa notes the world's worn cogs and says we're going to the dogs. His grand-dad in his house of logs, swore things were going to the dogs. His dad among the Flemish bogs, vowed things were going to the dogs. The caveman in his queer skin togs said things were going to the dogs. But this is what I wash to state: The dogs have had an awful wait.

Problems of the Modern Home

Text: Josh. 24:14, 15; Eph. 6:1-9.

The International Uniform Sunday School Lesson

* * *

PROBABLY it would be a mistake to assume that the problems of the modern home are greater than those that have confronted homes in the past. But surely the conditions and forces confronting the modern home are very different.

One senses the lack of any adequate home life in past generations when masses of people were under feudal lordship, where the home conditions were narrow and disheartening, where there was little equipment for real living, and where in many instances the head of the home was called away on duty for his feudal lord in war or in some other capacity

But the home of the past was in a relatively self-contained community. The mass of homes were rural, and in the main there was a possibility of a sort of patriarchal organization and tradition.

* * *

THAT phase of home life is now fairly well broken up Complex modern life. with its abnormally large urban population. has created new problems for the home through the new conditions

"Home" for many people today is simply a place where they eat and sleep The real activities of life are largely outside of the home for parents as well as children. and under such conditions it is obvious that there can be no such thing as real or ideal home life

Then. the conditions are changed morally and psychologically as well as economically and socially Old and well established ideals are challenged. and books go so far today as to suggest that the rebellion of children against their parents is a valuable thing

There has been a known day a general breakdown of standards revealed in the courts of the divorce courts, and in the conditions under which the masses of children are growing up with no real home ties and no home guidance. The problems incident to maintaining a home. and making it effective. were never more acute or complex than they are today

Someone not long ago made the tragic and terrible comment upon the saying "There is no place like home," in remarking, "Thank God there isn't."

* * *

BUT is the picture all as dark as this might suggest? Are there not brighter and better aspects? Most assuredly there are The very complexity of conditions implies new opportunities and new advantages For those who would discipline their own lives and build up a sound and healthy personal life and home life. the world of today offers a great deal that was denied earnest and serious people in the world of yesterday

One does not. of course. take into account exceptional circumstances or tragedies occasioned by such conditions as unemployment. but it must be remembered that there were always present exceptional and tragic circumstances

The one thing that is clear. however. is that there can be no satisfactory life in the modern home itself. or coming from the modern home. except as old and well established standards are recognized Home depends in its very nature upon love and loyalty. upon the faithfulness of its members to one another. and upon their mutual devotion to high ideals

Unrestraint and carelessness can be only destructive in their results. and one must view with alarm a great deal of the license and reactionary attitude that carries on falsely under the pretense of self-expression Self-expression is most dangerous to the self when it pursues paths that are against the welfare and building up of sound home life and ideal social relationships

OUTLOOK FOR GOLD MINING IS FAVORABLE

By CHAS. E. HUDSON

President, San Francisco Mining Exchange

In looking back over the events of 1932 we find many changes for which we are truly thankful, having managed to live through a disasterous period without failures and having seen the mining industry forge to the front in no uncertain manner.

Industry's Stability Admitted

The stability of mining is now admitted and the industry is now praised and respected by many who, a few years ago ,were casting slurs upon mining and mining securities while they were foisting upon the public loads of so-called "seasoned" securities which today are practically worthless. Those who formerly were antagonistic, are now quite friendly. We should be thankful.

Legislation Needed

As we enter the new year the outlook for mining is more encouraging than ever before and our State, being the principal gold producer of the West, should be in the foreground. There are more people mine-minded today than for a quarter of a century. But to make mining successful in California the Legislature must take immediate steps to remove some of the handicaps to the advancement of the industry. Amendments must be made to our corporation laws, making them equally as favorable as those of other states in order to secure for our State the income to which it is entitled.

The Compensation Insurance Act must be amended to reduce the rate on mining. The manner o festablishing compensation insurance rates in California has advanced these rates to the detriment of those carrying this insurance and they have been forced to pay 33 per cent more than the cost of the same class of insurance elsewhere.

It is the hope of mining men that the committee of fifteen selected by Governor Rolph to adjust the matter will really do something.

Again Being Universally Used

DOCTOR LAUDS HERBS, DRUGS

Drugs and simple remedies handed down for generations and later discarded are now proving to be of great value to the medical profession.

This was revealed by Dr. Linn John Boyd, head of the department of pharmacology and homeopathy of the New York Homeopathy Medical College. Dr. Boyd came from New York to attend the sessions of the American College of Physicians, of which he is a fellow.

"We can observe certain results in the use of animals," Boyd said. "But the animals cannot tell their feelings. For th efiner shades in results we need the human."

In these lesser known and discarded drugs, he pointed out ,modern medical science is finding great value. HERBS USED BY THE CHINESE FOR CENTURIES AND THEN DISCARDED, TODAY ARE AGAIN BEING UNIVERSALLY USED.

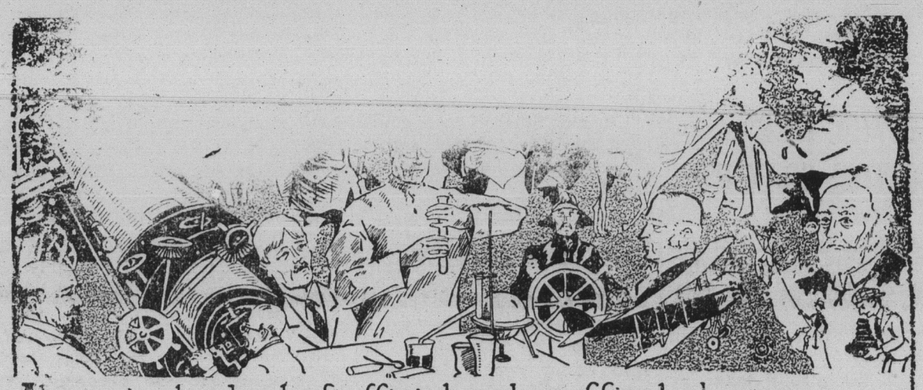
TRUTH - Stranger Than Fiction



It required a host of official and unoffical observers, scientists, writers, travellers, statisticians, journalists and other authorities from all parts of the world to gather the facts to be used in one advertising series of a local concern!

Photographs, newspapers, magazines and educational and scientific publications of many lands contributed to this collection of amazing FACTS!

More than one year was required by a highly trained staff of journalists, advertising men and artists to marshal these TRUTHS in the form you are soon to see them in!

NEWS COMMENT

By Christian Andersen

Odessa in Russia was at one time the wheat market of the world. Todays press carries the news that the Soviet Republic has found it necessary to reharsh the straw left from the first threshing and are recovering about 30 per cent additional grain. This is interesting, because it shows that things change in comparatively short time, and more important than all else is the proof that waste is being eliminated. You have no doubt seen the picture showing the cleaners gathering the grain in the stubble of a wheat field. I have seen cleaners with big bags gathering grain which was left by the harvesters and it would surprise you to see the amount gathered by these industrious working people. We are all learning to be thrifty, which is as it should be.

Representative Kendall of Penn. committed suicide at seventy three years o fage, because of grief. No doubt such an act is done in a moment of weakness but it seems that there are other ways to relieve such a weight without resorting to self-violence. And then too there are many useful things which a man of seventy three can do.

The auto show going on at the present time in San Francisco, is a credit to the Pacific Coast and to the automobile trade in general, not to say any less of Mr. Walhgren an old friend of the writer who so ably handles this great trade promotional show.

The Grass Valley-Nevada City bus line is certainly a great convenience as we have occasion to know, having commuted considerable this winter. I hope Joe does not think that I am criticising the service when I say that it would be a great convenience if it was feasible to run a few times on Sunday. Of course we dont know whether it would pay or not, we are however of the opinion that in time people would find out how convenient it is to ride the bus.

If this column seems haywire this week please excuse it for be it known that the three younger members of the family seem suddenly to have gone in for professional football or some such. From the yelling and shrieks some one seems to have scored a touchdown right under my typewriter table. The saying is "youth must have it's fling." Mine are having theirs all this evening.

We notice that the so-called Tsar of baseball Kensesaw Landis has voluntarily cut his own salary to $40,000 per year. We really feel sorry for anyman who has to struggle.

Silent Cal, now forever silent at least as far as we of this vale of tears are concerned, was laid to rest Sunday, and as a tribute to him and to show respect to his surviving family, the whole world was sorrowful. All party lines were obliterated by death. His staunch New England character made him a real leader and one thing is sure, he was first, last and always a man true to the country which placed him in the niche as one of the great men of this nation. His eternal sleep will be peaceful because his conscience was clear.

Mr. Sam Lusk of Lusk camp on the North Yuba, advised us to day that his mother who is 97 is quite ill at her home in Sacto. Mr. Lusk did not seem to think that it was serious, and anyway his mother says she will live till she reaches the century mark. And we cant help but believe that any one with that spirit will do just what she says she will do and then some.

We had a friend one time who was a writer of considerable ability. In his writings he never used the personal pronoun I b,ut always we, Asked why this was done he answered "nothing new has been written for centuries, but the arrangement of the phrases has been different by using we as the pronoun, I feel as though I am giving credit to those whose thoughts I am arranging on paper." Somehow this attitude appeals to me as a gracious gesture to those souls of scribes who have pased on to their reward.

Now that inventory is over and we are all set for th eyears business let me again humbly but emphatically remind you that even if you have been in business in the same locality for the last forty years and you think that everybody knows you, you still cannot hope to get your share of the business unless you advertise. But let me also warn you that unless you have made a fairly comprehensive study of the Philosophy of Advertising you must rely on someone else to advise you regarding the media you should use. Newspapers of your home town usually are capable of doing this and anyway newspapers reach the buyers of your community and it is a safe bet that you will get from them the result you so much desire.

Some words have an odd effect on what I am pleased to call my mentality. Yuba is one of them and some day I suppose I will compose a poem about the three of them. But dont worry no publisher will have the temerity to publish the ode and you wont be bored to read it.

Today while on business, I had occasion to visit the Weimar Sanatorium. This institution as I understand it, is maintained by the 12 adjacent counties, and the expense is prorated to each county on a basis of how many patients are sent there from that county. I also understood that the use of the sanatorium is free to the patients. Truly civilization accomplishes wonders.

The two Western Wildcats of the Senate today tangled. Johnson denounced Borah's policy regarding the moratorium, claiming that Borah had with held pertinent information regarding the readjustment of the war debts. This, Borah denied hotly and in a further exchange of verbosity it was hard to tell who came out ahead. We find it hard to believe that Johnson came out second best because the old war horse from California is a tough one to fool with.

Senator Dill seeks to have Congress authorize the purchase of two hundred and fiftv thousand dollars worth of silver of domestic origin against which would be issued silver certificates. This it seems to me would be a safe way to inflate the currency. Theodore Roosevelt was faced with the alternative of going through a depression or doing something about it. He issued script which had only the backing of the United States government. The script was eventually withdrawn but it had broken the back of an incipent depression which threatened to take the country. Of course Teddy was that kind of a man. This country could use a few men like him just now.

Santa Ana—Plans underway by Caryle Dennis to construct building to house printing shop.

Napa—K. E. Parker Company received $98,840 contract for construction of proposed post office.

San Bruno—Plans approved for proposed $750,000 San Francisco county jail here.

LEGAL NOTICE.

State of California
Department of Public Works
DIVISION OF WATER RESOURCES
Sacramento

NOTICE OF APPLICATION TO APPROPRIATE WATER

Application 7302

Notice is hereby given, That Relief Hill Mining Co., by C. E. Clark, Manager, N. Bloomfield, California, has under the date of June 23, 1932, applied to the Division of Water Resources, Department of Public Works, State of California, for a permit to appropriate unappropriated water, subject to existing rights.

Description of Project

Water to be appropriated from North Fork Poorman's Creek, tributary to South Fork Yuba River, county of Nevada.

Amount applied for: 50 cubic feet per second.

Diversion season named: January 1st to December 31st of each season.

Water to be used for mining purposes.

Point of diversion within SW¼ SE¼ of Sec. 9, T. 18 N., R. 11 E., M. D. B. & M.

Place of use described: Within NW¼ of Sec. 9 and SW¼ of Sec. 4, T. 17 N., R. 10 E., M. D. B. & M., as shown on map filed with Division of Water Resources.

Water will be returned to South Fork Yuba River within SW¼ of SW¼ of Sec. 9, T. 17 N., R. 10 E., M. D. B. & M.

Relative to Protests

Blanks upon which to submit protests will be supplied free upon request by the Division of Water Resources.

Any person desiring to protest against the granting of such permit shall within sixty days from date hereof, file with the Division of Water Resources, Sacramento, California, a written protest. Such protest shall clearly set forth the protestant's objections to the granting of the application and shall contain the following information:

(1) Statement of the injury which would result to protestant from such appropriation and use.

(2) The basis of protestant's water right.

(3) Protestant's past and present use of water both as to amount used and land irrigated, or use made of water if other than irrigation.

(4) The approximate location of such land or place of use and of the point of diversion of the water.

A copy of the protest should be sent to the applicant and this office notified that the same has been done.

EDWARD HYATT,
State Engineer.

Dated: Sacramento, California, December 23, 1932. J6-4t

KIRKHAM deceased, to the Creditors of and all persons having claims against the said decedent to file them with the necessary vouchers within six (6) months after the first publication of this notice in the office of the Clerk of Superior Court of the State of California, in and for the County of Nevada, or to exhibit them, with the necessary vouchers within six (6) months after the first publication of this notice to the said executor at the law offices of NILON, HENNESSY and KELLY, 232 Broad St., in the city of Nevada, County of Nevada, State of California, the same being his place of business in all matters connected with the estate of said F. R. KIRKHAM, also known as FREELING R. KIRKHAM, Deceased.

Dated December 2nd, 1932.

LYNNE KELLY
Executor of the last Will and Testament of F. R. KIRKHAM, also known as FREELING R. KIRKHAM, Deceased.

F. T. Nilon, Attorney for Executor.

First Publication, December 5th, 1932.

SUMMONS

In the Superior Court of the State of California in and for the County of Nevada.

No. 6085

Action brought in the Superior Court of the State of California, in and for the County of Nevada, and complaint filed in the office of the Clerk of said County of Nevada.

Corporation of America, a corporation,

Plaintiff,
vs.

Augustus Stenger, Margaret H. Dickerman, Thomas W. Richards, M. Rosenberg, also known as Morris Rosenberg, and Rose Rosenberg, his wife, John Doe, Richard Roe, Black Company, a corporation, and also all other persons unknown claiming any right, title and estate, lien or interest in the real property described in the complaint adverse to plaintiff's ownership, or any cloud upon plaintiff's title thereto,

Defendants.

The People of the State of California Send Greetings To:

Augustus Stenger, Margaret H. Dickerman, Thomas W. Richards, M. Rosenberg, also known as Morris Rosenberg, and Rose Rosenberg, his wife, John Doe, Richard Roe, Black Company, a corporation, and also all other persons unknown claiming any right, title and estate, lien or interest in the real property described in the complaint adverse to plaintiff's ownership, or any cloud upon plaintiff's tite thereto.

Defendants.

YOU, AND EACH OF YOU, are hereby directed to appear and answer the complaint in an action entitled as above, brought against you in the Superior Court of the State of California, in and for the County of Nevada, within ten (10) days after the service on you of this Summons, if served within this County, or within thirty (30) days if served elsewhere.

This action is brought to determine the adverse claims to and the clouds upon the title to the real property described in the complaint herein and hereinafter described by the said plaintiff, a corporation, which claims that by itself, or by itself and its predecessors in interest, it has been in the actual, exclusive and adverse possession of such property continuously for twenty (20) year prior to the filing of the said complaint, claiming to own the same in fee against the whole world, and to have paid all taxes of every kind levied or assessed against said property during the period of five (5) years continuously next preceding the filing of said complaint, and which said property is situated in the said County of Nevada, State of California, and bounded and described as follows, to-wit:

All that real property situated, lying and being in the city of Nevada City, county of Nevada, state of California, particularly described as follows:

All of Lot 5 and the west 20.75 feet of Lot 8 in Block 16, Nevada City, California, as shown on the Official map of Nevada City, made by H. S. Bradley in 1869.

Beginning at a point on the south side of Broad Street from which the corner of Broad and Pine Streets bears N. 72 deg. 26 min. W. 120.57 feet, and running thence:

1. S. 72 deg. 26 min. E. 20.66 feet. Thence
2. S. 17 deg. 06 min. W. 173.00 feet to Spring Street. Thence along Spring Street
3. N. 72 deg. 26 min. W. 20.75 feet to the east line of Lot 4. Thence
4. N. 17 deg. 08 min. E. 173.00 feet to the place of beginning and containing 0.0825 acres, more or less.

AND YOU ARE HEREBY NOTIFIED that unless you appear and answer as above required, the said plaintiff, a corporation, will take judgment for any money or damages demanded in said complaint, as arising upon contract, or will apply to the court for any other relief demanded in the complaint.

GIVEN UNDER MY HAND and the seal of the Superior Court for the County of Nevada, State of California, this 27th day of June, 1932.

From Our Correspondents

CAMPTONVILLE

CAMPTONVILLE, Jan., 5.—Jack Alpers and Lemar Wellmann left Wednesday for their home at Marysville, after a short visit into the mountains.

George E. Lang, returned Wednesday from Fairfield, where he recently moved his family.

George Wilson, lineman of the Pacific Telephone and Telegraph Company at Sacramento, was in town Wednesday on business.

W. H. Cartwright of Grass Valley passed through Thursday.

CAMPTONVILLE, Jan., 9.—Mr. and Mrs. Acton M. Cleveland returned from Sacramento Friday evening after spending two days visiting their daughter there.

Mr. and Mrs. William A. Lang, Mrs. Samuel F. Price, and Miss Dorothea Mark, motored to Marysville Friday on a short business visit.

Charles Wilson, Jr., arrived Friday from Sacramento to spend the week end visiting his father at Log Cabin.

William Groves, who atends high school at Auburn, arrived Friday evening to spend a few days visiting hi smother and aunts.

Glenn Silva of Browns Valley was in town Sunday on a short visit to friends.

James L. Joubert left Sunday for Sacramento after spending the week end visiting relatives at Oak Valley.

Elsie Ann Price, Deputy Superintendent of school of Plumas county, of Quincy, left Saturday for the Plumas county seat after spending the holidays with her parents, Mr. and Mrs. Samuel F. Price.

Miss Lola M. Labadie who spent the past two weeks here visiting relatives left Sunday for her home at Browns Valley.

NORTH SAN JUAN

NORTH SAN JUAN. Jan. 12.—New Year's Day was enough to make everyone happy. It was warm and beautiful.

The Sunday School Christmas program, which had been postponed because of so much sickness, was given Sunday afternoon, Jan. 1st.

The songs and recitations by the children were enjoyed by those present and the beautifully decorated tree was an inspiration to all. The program:

Song, "O, Little Town of Bethlehem"; The Lord's Prayer; Scripture reading; Songs by children; Recitations, Jerry McQuinn, Elaine Kessler, Grace Proom, Betty McQuinn; song by girls; duet, Wilma Kessler and Ardith McQuinn; hymn, 'Holy Night.'

Mr. and Mrs. J. H. Aldridge and family spent New Year's with Mrs. Aldridge's sister, Mrs. A. R. Edwards at Yuba City.

Charles Weinman and sisters entertained Mr. and Mrs. W. R. Burnett for New Year's dinner.

Mrs. Joe Young's parents, Mr. and Mrs. Brocklehurst, of Rodeo, spent a few days here during the holidays.

Mrs. Washburn has been in the Jones Memorial hospital for some days, undergoing an operation. She is doing well and will be home in a short time.

J. J. McCullough has a broad smile these days, on account of the arrival of a fine bouncing grandson, which arrived as a Christmas present. Little Kerr Joseph was born to Mr. and Mrs. Mike Phelan on December 28th.

Mrs. Kern Fogarty has been confined to her home for about two weeks with the influenza, but is now improving.

Mr. and Mrs. Danforth and family spent some days in Oakland recently.

Mr. Fremont Wood was laid up for some time as the result of a serious fall but is now able to be around again.

F. M. Harris made a business trip to Marysville Friday.

Miss Dorothy Buhl and Miss Eva Clay of Marysville visited Miss Clerkin several days last week.

Mr. and Mrs. Bain Crawford and little daughter are now living in San Juan.

Mr. Huckins is enlarging his store and among other improvements has put in a big plate glass window.

Mrs. Bernice Shaffer of Napa is making a visit to her parents, the Kern Fogartys.

Miss Alice Baylis opened school on January third, after a two weeks' vacation. Miss Baylis spent the holidays very quietly at her home in Berkeley, as her mother was in the hospital having had two operations recently.

Mrs. Acton Cleveland motored down from Camptonville on Monday, and accompanied by her mother, Mrs. Huckins, made a trip to Nevada City.

Supervisor Dudley was a visitor in San Juan Monday.

John and Loretta Bartch were in town Monday. Miss Loretta reports that all are well on Moonshine and have escaped the "flu" which has been prevalent in town.

W. P. Clerkin attended the meeting of the mining asociation held in Grass Valley on Saturday afternoon.

News was received here Monday of the death of Lou Dahneke in a hospital in his home town of Palo Alto. Mr. Dahneke was well known all through this vicinity as he was born in San Juan in 1863. He went to Camptonville when but 17 years of age and worked in a blacksmith shop. Later he owned his own shop there where he worked for many years. He married Miss Mary Price of Camptonville a few years ago, and they moved to the bay region. Besides his wife, children and grandchildren, there remains his mother, Mrs. Helena Dahneke, and sister, Miss Lena Dahneke, of San Juan.

Mr. Shafer, Mr. Wires and Mr. Palmer had quite an accident Sunday when their car pitched over the Freeman's Grade crossing, striking on the front end and turning over. The occupants received a shaking up, some scratches and bruises and Mr. Palmer had some cracked ribs. The car was badly smashed, and the accident was investigated by Traffic Officer Andrew Ponta, of Downieville.

Rev. Buckner preached here Sunday afternoon. The subject of his sermon was "Acquaintance With God."

ROUGH AND READY

ROUGH AND READY, Jan. 12.—The trustees of the Rough and Ready school district have had a new roof put on the schoolhouse, and are having it painted green. Owing to the weather for the past ten days it was finished without getting the interior wet.

The many friends of Mrs. Taylor will be pleased to hear that she is recovering from pneumonia. For several days she was very ill and no hopes were held for her recovery. However, careful nursing pulled her through. Mrs. Taylor is nearly 80 years of age and has been a resident of this section since a girl.

Mrs. Maud Calvert is here taking care of her mother, Mrs. Taylor.

Joseph Taylor has returned to his home in Marysville after spending several days with his mother, during her sickness.

R. L. Capps spent Christmas with his family and returned to the government hospital at Vallejo for further treatment.

B. G. Burns, wife and sister, Elsie Johnson, of Paradise, spent the Christmas holiday with Mr. R. M. Gregg and R. L. Capps and family.

Lucius Abbott and family and Neil Abbott spent Christmas here.

Lee Allan and family have moved from the Deer Creek section to Newtown to live, which takes three children from our school, but we have four children in place of them, as J. Cornish of Grass Valley has moved onto the H. C. Black ranch. W. Burcell, who formerly was on the ranch, has moved to Gridley. We now have 24 pupils in our school.

Mrs. M. E. Frank has returned from Oakland where she spent New Year's.

The Penn Valley home Dept. met January 4th at the home of Mrs. George Howe in Rough and Ready. There were eight members and four visitors present. School lunches were one of the subjects presented by Chairman Mrs. Loney. The club is also doing serving for the children of families camped along Deer Creek. After the meeting Mrs. House served refreshments.

Mrs. Martha Spencer and family of Hammonton spent Sunday with Mrs. J. Stevenson.

FRENCH CORRAL

FRENCH CORRAL, Jan. 12.—The holiday season over, vacationists are returning to their various branches of employment.

While the nights are cold, we have enjoyed days of pleasant sunshine during the past week.

A cheery sound is the ringing of our school bell and we are glad to announce the addition of five new pupils, which brings our school attendance up to fourteen.

Mr. and Mrs. W. Williams and their family of eight children have taken up their residence near French Corral. A married daughter, Mrs. Spelling and little son, of Oregon, are with them at present.

E. DePratti has returned to French Corral.

A. T. O'Connor returned to San Rafael last Thursday after spending the holiday vacation at the old home place in Birchville.

Miss Millie Clerkin and Miss Happy Buhl visited friends here during the week.

Mrs. H. Skinner and daughter and son of Challenge, were recent visitors. She was accompanied by her mother, Mrs. J. Solaro and brother, Eugene, of North San Juan. Mrs. Skinner is a native of North San Juan, where as Clara Solaro she passed all her early life. At present her home is in Challenge, where her husband teaches school.

Mr. and Mrs. S. Haslett and H. B. Bishop were visitors in Nevada City this week.

Mountain View Couple Celebrate Golden Wedding

CAMPTONVILLE, Jan. 9.—Mr. and Mrs. E. E. Luce, now of Mountain View, celebrated their Golden Wedding Anniversary at their home at that place a few days ago, their sons and daughters being present.

The Luces formerly and for many years resided near here at Luces Mill, five miles north of here. The couple was married at Marysville in the United States Hotel in 1882. They have three children, seven grandchildren and one great-grandchild. Their son, Guy Luce and his family also reside at Mountain View.

Modesto—Purity Stores moved to Eye street Store to Rosenthall building, 10th street.

NEW MINING CO. TO OPERATE NEAR HERE

Recently completing a deal with Harold B. Wright of this city, T. M. Darnell of El Cerrito, representing the A. A. Wise interests of Oakland, has taken over the Harrison French Placer mine in French Corral. Work of an extensive nature is being planned by the incoming company at an early date.

Darnell has been affiliated with the Yuba Consolidated Mining Company and is not unfamiliar with mining conditions on the San Juan ridge. He will be engineer in charge o foperations at the Harrison French property.

James Rodda, formerly of Grass Valley, and Clarance Knights of Berkeley worke dthe property last winter. Since that time considerable development work has been done, at that time by them and later by Wright.

French Corral is a busy place days as there has been considerable activitiy in the gravel mines of that district lately. Most of the men working on these mines do a good bit of their trading in Nevada City.

Los Angeles—Bank of America opened branch office in Sears-Roebuck and Company Store.

San Diego—Crew of men digging trench for water companys pipe line on Santa Anita street.

Placerville—M. J. Bevanda, Stockton, received $36,213 contract for highway work in this place.

FIGURES SHOW DEER HUNTERS TRAVELED MANY WEARY MILES

Looking over the record of the deer hunters over the entire state, gives some peculiar figures to study over. For instance, 70 per cent of the deer killed were between 6 a. m. and 12 o'clock noon the favorite hours seemed to be between 7 a. m. and 10 a. m.

Early morning hunting was not so popular this year a sonly 893 bucks were reported killed during the earlier hours of the day.

The tags disclose the fact that the bucks were killed with no points on one side of the head and two on the other—in fact one deer had 20 points on the left side and 14 points on the right side. Several other freaks were reported.

The grand total shows some 100,000 tags sold this year and the average amount spent per man on amunition, transportation, food tobacco etc. was about $100.00 per man. The average miles traveled for each deer killed was 347 miles. Those hunting in Los Angeles county did most of the traveling.

Seventeen per cent of the kill, was made on the opening day.

Concord—Dr. T. D. Leon opened office in Concord Hotel builting.

The Feminine Touch

When death visits a home, and especially when it is a woman or child that is stricken, feminine advice and help is greatly appreciated. A woman's sympathy and understanding is invaluable in such a case. We have on our staff a trained and experienced lady assistant whose services are available to all our patrons.

FIND GOLD
Old prospector perfects sure method of locating gold and silver. Two years tests under every condition, both on top and underneath the ground has absolutely proven the efficacy of these detectors in every case. Old prospector says, "These will locate gold for you in 10 minutes where otherwise it might take a year without them. With so many prospecting these days, it pays to have these extra eyes that see underneath rocks and rivers and make the biggest finds. Hundreds of thousands of dollars in gold is available to ambitious miners who go after it Intelligently and equipped with these gold finders." You can't go wrong by using a prospector's invention and if you don't like it we will refund your money. Send $1.50 for small size or $3 for the standard size and illustrated booklet.

THE PAY STREAK

By H. M. L.

The stock market is climbing again, according to press dispatches. It has reached a point averaging high in November. It was the stock market tumble that precipitated the stringent times that hit almost everywhere on earth except the Twin Cities of Nevada county and South Africa. Even South Africa has lately had difficulty in retaining the gold standard. But here's hoping that the rise in stocks will prove a harbinger of the spring time and normalcy.

Even our "hunger marchers" are modern. Met a procession two blocks long moving out of Sacramento in a southerly direction. They had moved on the State Capitol and were then going some place else. From the fact that all this company of some 200 were rolling and not marching, came to the conclusion that somehow they were eating. Marchers in automobiles are a long way in time from the Paris mobs whom an innocent queen advised to eat cake if they could not obtain bread.

There are 42 camps for unemployed established in various places through the forests. Their capacity is 7,000, and those at present housed therein number 3,500. Which leads to the question of whether times really are as hard as they are reported to be. The sick man usually thinks he is a lot sicker than he is.

Grass Valley yesterday closed the schools in the afternoon in honor of the memory of a splendid teacher, the late Miss Frances Doom, funeral services for whom take place today. Thousands of people mourn the passing of this woman who devoted her life to teaching. If intangibles could be measured, her influence on the character of the many children upon whose plastic minds she impressed her fine ideals, might prove greater than that of any one person in Nevada county. It is appropriate that the schools should have a half day in order that the children may remember in times to come to give honor to those to whom honor is due.

ALASKA MINE HEAD VISITS THIS DISTRICT

Spending several days over last week and in Nevada City was one of Alaska's foremost mining men. He is P. C. Ramer, president of the Bremner Gold Mining Company, incorporated of McCarthy, Alaska. The stranger was a guest of Mr. and Mrs. Don Carlos Billick, for the several days that he visited hee. M. Billick is a local assayer and mining engineer.

During his stay here, Ramer looked over some of our mines and mine prospects. He was very much impressed with the deep quartz gold mining possibilities in the Nevada City ditrict and showed much interest in the past records of some of our famous producers.

Ramer had been in Sacramento and the bay cities before stopping here for the purpos eof purchasing materials and supplies for his company's mine in the interior of Alaska. After resting here for the few days he left immediately for his home in the northland.

Interesting to note is the history of the mine that the Bremner Company is now developing. It was discovered by S. L. Ramer the brother of P. C. Ramer, now vice president and general manager of the Bremner Gold Mining Company. He had been working several placer mines up one of the long rivers in Alaska and after a period of five years work, he noted that the placer gold became noticeably heavier and with considerable evidence of quartz as his me nworked up the river.

He organized several prospecting trips, each one of which brought him closer to his ultimate goal. Finally his efforts were rewarded when he opened up one of the richest quartz gold veins in all Alaska.

Soliciting the aid of his younger brother, P. C. Ramer, the mine discoverer decided to organize a company in order to develop this rich find, miles from regular paths of transportation. Working together, the two brothers organized the Bramner Gold Mining Company and sold practically all of the stock in or near McCarthy.

Starting development work with a few men, the Ramer brothers soon put the mine on a paying productive basis. The company bought an aeroplane for transportation purposes and with the aid of horses and dog sled teams installed all of the necessary equipment for mining the high values carried in the vein.

At present the animal drawn sleds are being used to haul new and more modern mining equipment and winter supplies ito the mine, because the snow on the ground is now ideal for sleighing purposes. The aeroplane is being used for passenger service and for faster transportation of supplies. There are 20 men at wok underground.

Th ehistory of the Bremner mine is very picturesque and full of the romantic; but no more so than a great many o four own quartz and gravel mines in this district. Right now history is being made in this gold mining field and many of our eghbors are taking the principal roles.

SACRAMENTO MEN ASK FOR PERMIT TO OPERATE STAGE

Walter C. Eck and William F. Bennetts of Sacramento, have applied to the Railroad Commission for a certificate of public convenience and necessity to operate an auto stage trucking service between Sacramento and Grass Valley and Nevada City and intermediate points except intermediate points between Sacramento and Auburn.

Dr. W. W. Reed was called to Sacramento Sunday on professional business.

Dr. Carl Jones of Grass Valley was called to Nevada City Sunday on professional business.

Alex Chisholm, who has been laid off for several days with a bad cold, wa sable to b earound again Thursday.

Mrs. J. VonDornum, who has been quite sick with influenza, has entirely recovered.

Mr. and Mrs. William Fenton of the Tom and Jerry hydraulic mine have been in Nevada City all of this week.

Frank Dillon of Washington has been staying at his home in this city for the past week. He is planning a trip to the bay region soon.

Mrs. Otto Schiffner and her son, Delbert, are suffering from an attack of the "flu."

After several days of the current flu, Don Carlos Billick was able to return to his assay office Tuesday morning.

Mrs. Leah Carter, after an illness of about two weeks, is to be seen today for the first time back at her position in the Shamrock Cafe.

Mr. and Mrs. H. H. McCrea of Sacramento, were week end visitors with Mrs. McCrea's parents, Mr. and Mrs. Fred Tredennick.

Mr. and Mrs. C. A. Libbey, of Eureka, have returned home after a visit with Mr. and Mrs. W. G. Richards.

Mr. and Mrs. William Eden and son who have been visiting relatives in Nevada City, have returned to their home at Williams, California.

Several parties have been investigating the Goforth mining claims west of the Empress mine in the Rough and Ready mining district.

Judge Raglan Tuttle is among those who have been sick this week and has been unable to be at his office in the court house.

Walter E. Sullivan has returned to Nevada City after an illness at the Mare Island Naval hospital. He is much improved in health.

N. E. Otterson, mining engineer with offices in San Francisco, was a Nevada City visitor on business Wednesday.

Fred Cassidy, after spending several days in San Francisco, returned to this city Monday night.

Miss Bernice M. Clemo was another member of the local club that spent the day at the neighboring ski course. She enjoyed the skating facilities that are run in connection with the ski course.

Thomas Bath was in town Tuesday and Wednesday. Bath owns six quartz mining claims in the Rough and Ready mining district west of this city.

George W. Erway has been dickering with interested parties in regard to his quartz claims on the middle fork of the Yuba river.

Frederick Crabbe is now fully recovered after being stricken twice within a week with the flu.

Mr. Ed Uren, local consulting mining engineer, was seen down town for the first time in a month Tuesday. Mr. Uren has been stricken with a severe case of the flu that seems to be making the rounds these days.

Mr. Don Carlos Billick, local custom assayer and mining engineer, has been ill over the week end. His place in the assay office was taken by Mr. Frank E. Clark, mining engineer of this city. Mr. Billick was back on the job again Tuesday.

The Parent Teachers Association report that the sale of Christmas seals for the last year amounted to $42.92. Part of the money goes to the California Tuberculosis Association and the remainder is used to buy milk for use in the grammar school.

Orange Cove—W. J. Irwin built plant for handling milk.

CALIFORNIAS MINERAL PRODUCTION IN 1932

The total value of the mineral production of California for the year 1932, just closed, is conservatively estimated by the statistical division of the State Division of Mines under the direction of Walter W. Bradley, State Mineralogist, to have been $209,725,000. This is, in part, detailed in the tabulation below, but as there are more than fifty mineral substance on California's commercial list, it is impracticable at this early date to obtain definite figures on other than the more important items. The blank report forms are being mailed to the operators in ali mineral lines, and the detailed and complete report will be compiled and published later.

The estimated total of $209,725,000 is a decrease of approximately $6,239,000 from the value of 1931 production of $215,964,420. Petroleum and gold were the only major mineral substances whose output showed an increased value over the preceding year. Large decreases in values were registered by cement, miscellaneous stone, natural gas, copper, quicksilver, brick, industrial materials and salines.

The value of the petroleum output was approximately 8.5 per cent higher although the quantity showed a decrease of about 8,840,000 barrels in quantity from 1931. On June 26th there was an increase in the price of all the crude oils lighter than 20 degrees B. Around 85 per cent of the crude oil at present produced in California is about 20 degrees B, some testing as high as 60 degrees B, while the low grades range down to 9 degrees B.

Receipts of bullion at the mint and smelters show an increase in the gold yield of about $886,000 compared with 1931. Small placer operations, brought about by unemployment in other industries, accounted for an increase of some $300,000 over the same source in 1931. Both the total output of the lode mines and dredges showed an increase. All other metals showed a decrease in production owing to the shutting down of operating properties due to the low prices of the metals.

When the complete reports are ready for publication it will be interesting to note the increase in gold production, particularly in Nevada and Sierra counties.

The total estimated gold production in California for 1932 is given as $11,700,000. The production in 1931 was $10,708,000, which was an increase of around a million dollars over 1930.

MILLIONAIRE RUINS ROMANCE, CAUSES SWINDLE EXPOSE

Robert Armstrong, in what is reported to be the best role of his career, heads the cast of "The Billion Dollar Scandal," an expose of a gigantic swindle, directed by Harry Joe Brown, which begins an engagement at the Nevada City Theatre, Saturday.

Armstrong portrays Fingers Partos, who learned massage by way of the prize ring, went to prison for some minor offense, and came out to become masseur and gym teacher for a wealthy banker named Masterson and his associates. Playing stock tips he overhears in his gym class, Finger makes a fortune and then because his younger brother falls in love with Masterson's daughter, Masterson breaks him.

With revenge as his motive, Fingers listens to the suggestion of a powerful newspaper editor that he tell for publication the details of a nation-wide swindle he overheard Masterson plotting. His disclosures make him the man of the hour, saviour of a people and the nemesis of Masterson and his millionaire crook associates.

In addition to Armtrong, the cast includes Frank Morgan as Masterson; Constance Cummings as Masterson' daughter; James Gleason as Ratsy, pal of Fingers; Warren Hymer as the Kid, another pal; Olga Baclanova as Anna, Fingers' girl; Irving Pichel as the newspaper editor.

Thos. R. Wentzell of Wentzell's Service Station at Roseville, was a business visitor in Nevada City yesterday atfernoon. Mr. Wentzell says the railroad town is pretty quiet these days.

Mrs. L. J. Truscott has been confined to her home with an attack of the flu for several days, but is now much improved.

Fred Yocum, crusher man at the Murchie mine, who was injured last week in a fall into an ore bin, is rapidly improving and will soon be able to return to work. Yocum suffered an injury to his back and has been laid off for several days.

Dr. F. E. McCullough, physician and surgeon, who has been in Nevada City for the past week with a view of locating here, has made arrangements to open an office in the location formerly occupied by Dr. R. F. Werner. Dr. McCullough comes here from Sacramento and at one time practiced in Lincoln.

San Mateo—Telephone overhead cable to be installed between this place and Mackey station on Meyn ranch.

National City—Brooks Ideal, a store, opened with new self-service system.
